International Aerospace Quality Group

OASIS

Online Aerospace Supplier Information System

Garmisch – 17 June 2005

Hans Ziemer
EADS Military Aircraft

I.A.Q.G. International Aerospace Quality Group

Purpose

To *operate* an *effective quality surveillance tool*

to *increase quality and safety*

in the *whole aerospace supply chain*

and *eradicate non value added redundant QMS audits*

on a *global level*

Definition

The IAQG Other Party Scheme “OPS” is a global industry-controlled system for the use of assessment results from Certification/Registration Bodies “CRB’s” based on 9100, 9110 & 9120 standards

Principles

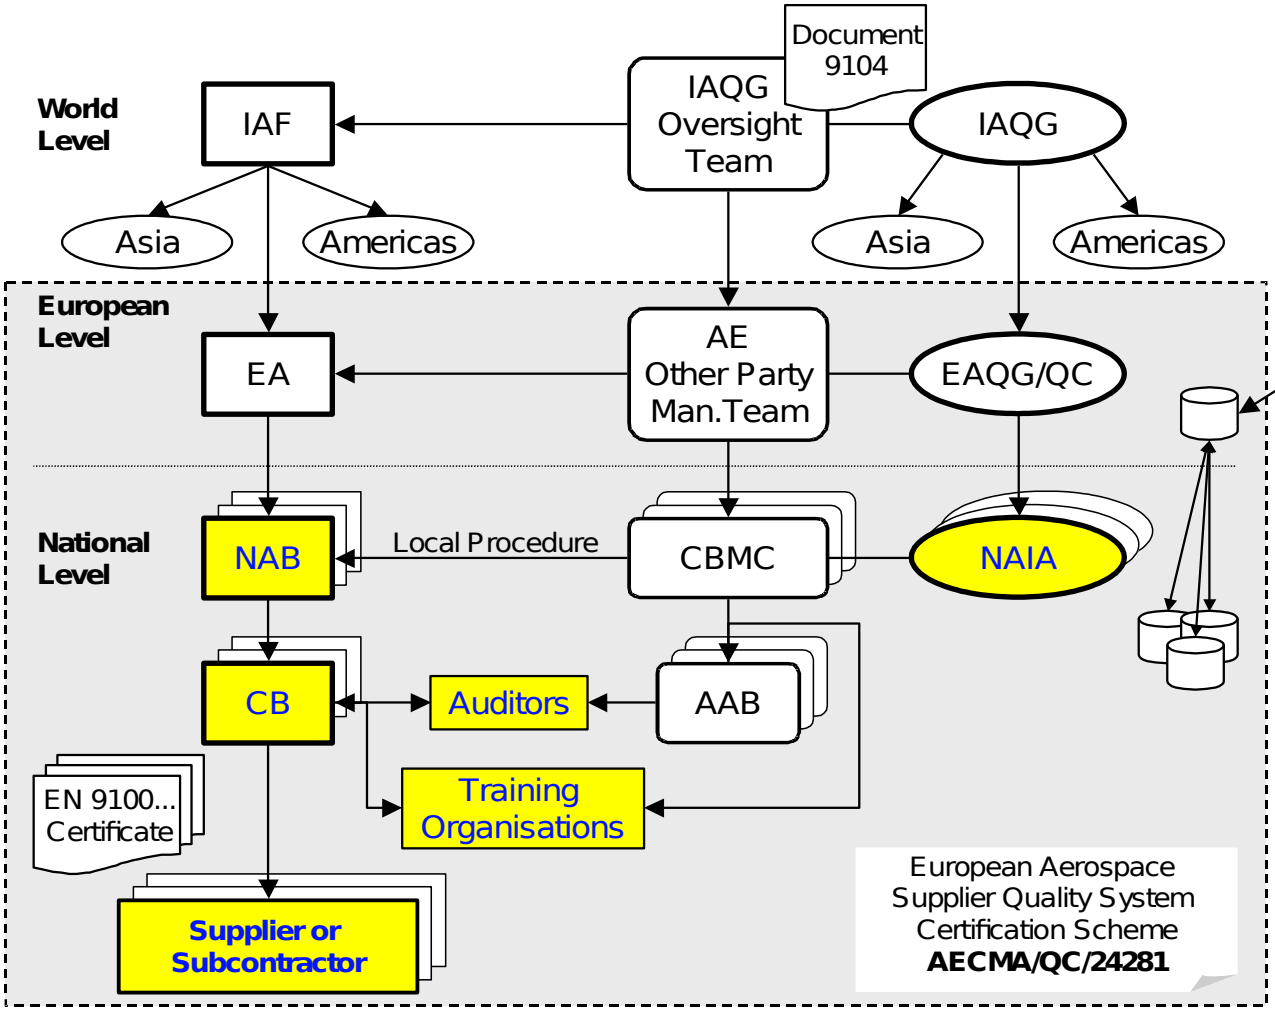
Other Party Scheme is based on:

- The use of identical or equivalent international, sectorial and national standards based on 9104
- An oversight system at international (IAQG), sectorial (Europe, Asia-Pacific and Americas) and national levels to ensure that scheme's requirements are fulfilled
- Auditors authenticated against identical requirements
- All information related to the scheme is collected in the database OASIS (Online Aerospace Supplier Information System)

I.A.Q.G. International Aerospace Quality Group

Structure

EUROPEAN MANAGEMENT SYSTEM – Other Party Certification for EN 9100 Series



DATA BASE

- Mandated Accreditation Bodies
- Accredited Certifiction Bodies
- Authenticated Aerospace Auditors
- Authenticated Training organizations
- EN 9100 Certified companies

IAF - International Accreditation Forum
EA - European Accreditation
NAB - National Accreditation Body
CB - Certification Body
NAIA - National Aerospace Industry Association
CBMC - Certification Body Management Committee
AAB - Auditor Authentication Board

OASIS Basic Rules

On line Aerospace Supplier Information System

- Other Party Scheme certification includes registration in OASIS
- Certificates registered in OASIS are recognised by all IAQG members
- All aerospace organisations can take advantage of Other Party Scheme (Primes, Suppliers and Sub-tiers)
- Accredited Certification Bodies according to the IAQG Other Party Scheme are registered in OASIS

OASIS Benefits

- Only one source
- Global access, 24 hours 7 days a week
- No individual verifications necessary (Certification Bodies, auditors, etc) – oversight, data self verification, etc
- Provides Up-to- date information on Aerospace Quality Management System certification to:
  - Primes
  - Suppliers
  - Sub-tiers
  - Airworthiness Authorities, Agencies, etc

OASIS Data

- "Public" Data – Certificate Information
  - Organization Name / Location
  - Standard Certified
  - Certification Body/Registrar
  - Scope of Certification
  - Expiry Date of Certification

- "Private" Data
  - Number and Type of non-conformance (Major & minor and related to standard chapters)
  - Name of Aerospace Experienced Auditor(s)
  - Score (total and by standard chapter)
  - Audit Conclusion (statements from the Auditors)

OASIS registration fees

- Initial registration entry fee – 500 $
- Recurrent registration fee (normally in 3 years) – 375 $
- When breakeven achieved OASIS registration fee policy will be discussed

Demographics*

	National Schemes	NAB's	CRB's	AAB's	Auditors	OASIS Supplier sites
Americas	1	3	37	3	310	1899
Asia Pacific	1	1	3	1	23	74
Europe	5**	5	33	8	201	1010
TOTALS	7	9	73	12	534	2983

NAB – National Accreditation Body

CRB – Certification Registration Body

AAB – Auditor Authentication Body

*18 April 2005

**Austrian Scheme on going

OASIS status

Status per 22 April 2005 (20 September 2004):

- **5425(3099) users**
- **528(512) registered Aerospace Auditors**
- **72(68) approved CRB's**
- **3083 (1745) certified supplier sites:**
  - **1892(1191) in USA**
  - **1076(509) in Europe**
  - **115(45) in Asia/Pacific**
